

LAWSON AIRLINER TO MAKE HER TRIP TO LA CROSSE SOON

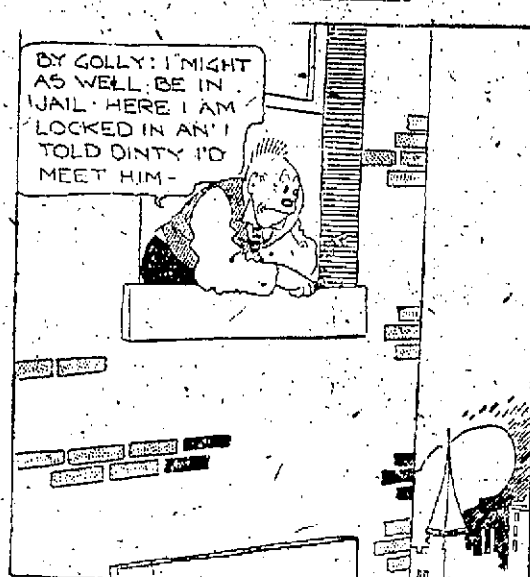

Big Passenger Ship to Fly to this City to be Christened "La Crosse"

Beginning February 1st, the Lawson Airplane factory at South Milwaukee will be a very busy place. Alfred W. Lawson is to build eight more of his giant commercial airplanes and a double crew will work night and day so as to get the eight ships out by May 15th. Mr. Lawson went to Washington recently to apply for an extension of time on his government mail routes, one of which he has scheduled to start on January 15th of this year. The extension of time was granted as Mr. Lawson showed the postal authorities that he needed more ships for the service and preferred to start out under favorable weather conditions instead of being handicapped by the rigors of the bad winter months. By May first, the airplane inventor expects to have his full fleet of ten big airliners in operation, some of which will ply between Chicago and New York.

The new ships will be heated, will have electric lights, and hot meals will be served by means of big Aladdin Thermalware vacuum food containers which will keep soup, meat, vegetables and puddings hot for 24 hours. The meals will be prepared by a chef before the ship starts and a waiter will serve the meals on board at meal time.

The new Lawson Airliner which is already for her maiden flight is expected to take to the air sometime in February. The new ship is anchored in front of the hangar at the Lawson factory, and all it needs is a fine day, a little time to spare, and the ship is off. She will make her first flight from Milwaukee to La Crosse, where she is to be christened.

SHOW ME THE WAY

Now therefore, I pray Thee, if I have found grace in Thy sight, show me the way, and I will know Thee, that I may find grace in Thy sight.—Exodus 33: 13.

A Talking Point

CHARGES that President Wilson is a good friend of radicals have been repeatedly made, but seldom with such logical basis as the president provided on Monday. His action in the Debs-communication case will probably be applauded by many bitter enemies of radicalism, and condemned by radicals, but the chances are that in the long run the decision to keep the head of the socialist party in prison will prove an effective subject for radical oratory. There is nothing that is so welcome to the soap-boxer as a martyr for whom sympathy may be aroused to shed its benediction on the cause. Debs makes a much better apostle of radicalism as a sacrifice to "capitalism" than he ever did as a stump-speaker.

One does not need to condone or approve the speech for which Debs is in prison to be heartily sorry that the recommendation of Attorney General Palmer that his sentence be commuted was refused at the White House. Debs in a time of war made a radical talk which a jury decided was in effect a plea for mutiny in the army and a deliberate effort to obstruct recruiting. As such it was crime against his country in the emergency, and Debs was rightly imprisoned for it, we believe.

But the emergency is now long past. The mutiny Debs urged never happened. Recruiting went on and the war was won. As a man who was obstructing defense of his country it was right to put Debs in a cell. But with the emergency over Debs' attitude on the war is no further menace, and there is nothing to be gained by keeping him in a cell. The only profit in his continued imprisonment accrues to the radicals who pose him as a victim for the benefit of the propaganda, and who find it a telling argument against the republic that it alone of all nations in the war is still keeping in jail those whom political necessity locked up while the conflict was on.

Gene Debs is, we believe, a misguided Utopian whose principles and theories have no place in a practical world. But we also believe that he is sincere and brave, and even patriotic according to his peculiar lights. He never was, except technically, a revolutionary conspirator working in the dark to undermine democracy by force and violence. Holding him in jail until the end of his ten-year sentence may do as much to spread his impractical propaganda as all the speeches he could make were he free.

For the Defense

THROUGHOUT the civilized world the taxpayers are troubled as they read of the vast sums the debt-burdened nations are spending on armies and navies.

Is it any wonder? H. N. Rickay, in a Washington dispatch, shows that the nations will spend five billion dollars at the very lowest estimate, this fiscal year, preparing for another war.

And that isn't the end of the question by a long shot!

Is all the money being well spent, from a standpoint of national defense?

Much of our money, here in America, is going for huge surface battleships.

England is building no battleships and is doubtful whether she'll ever build any more battleships!

Can it be that we are spending millions on a type of defense that wouldn't defend us in another war? Is the battleship obsolete?

The London Daily Mirror editorially reviews the lessons of the war and demands: "What is the use of a battleship?" The Mirror, incidentally, is one of the greatest papers in England. It is published by Lord Rothermere, brother of Lord Northcliffe.

Here's how the Mirror sums up the war's lessons to prove that battleship-building is worse than useless:

"1. We see that our greatest danger during the war came from submarines in 1917 and 1918.

"2. That had the Germans been fully provided with submarines and ruthlessly used them in 1914, in-

stead of two or more years later, we should have lost the war.

"3. That our fleet remained in great peril, lurking behind the shelter of our Northwestern coasts; because it could not come out, or stay out, on account of mines, submarines, and the aircraft that will be much more deadly in the next war.

"4. That when it did come out for a big action it could not stay out long enough for a decisive victory on account of submarines.

"5. That, in sum, its surface activities were all along restricted in home waters by this peril under the sea and in the air, and that it was unable to prevent the growth upon the Belgian coast of hornets' nests of these enemies which thickened about it as the war went on. Nor was it able to secure a definite superiority over the enemy.

"The old historical Armada perished because it was obsolete and cumbersome.

"Shall we build a new one with no money to do it with—in order that we may make an old mistake over again?"

So says the London Daily Mirror. Many other British papers take the same attitude.

Can it be that we, in the United States, are pouring out our gold for a defense that would not defend us in time of peril—for a cumbersome, surface fleet that airplanes and submarines would easily drive to cover?

Railroad Wages

THE railroads—just after getting the increase in rates they have been after for several years—are again declaring themselves on the edge of bankruptcy. This time they claim only release from their national union agreements and a cut in wages will save them. There's a lot of wage-reduction going the rounds of the country, not without some color of reason because of a reduction in prices of many articles which makes their manufacture at war wages impossible. But railroad rates haven't dropped. The railroads are getting more for their services than ever.

The railroad plea for abolition of the national agreements and wage-reduction would also sit a little better with the public, one is inclined to think, if the executives had first disapproved the brotherhoods' charge that they are farming out repair and maintenance work at inflated contract rates to concerns whose control interlocks with that of the roads. Lacking such rebuttal, it seems not unreasonable to suggest that a good way to begin the development of the efficiency and economy that the executives say is so sorely needed—and which the law requires—would be for the roads to resume repair and maintenance work themselves, at cost instead of at a profit to contractors.

The railroads make much of certain conditions imposed by the national agreements which they say needlessly add to costs, and there may be justification for the statement. But it would seem that the conditions could be changed by some means less drastic and less dangerous to uninterrupted transportation than scrapping the machinery of industrial relations which has been keeping peace on the railroads.

What is there about a drum that makes every man itch to beat one if he gets a chance?

In Ye Olden Times

TEN YEARS AGO TODAY

It is now practically assured that a stadium will be built on the causeway under the patronage of the city park commission in time for its use during the 1911 season as the park of the La Crosse baseball of the "Minn" league. The plan contemplates the absorption of the city of enough of the waste swamp land along the causeway to accommodate a city park to be developed as a municipal playground according to the idea of John M. Nolan, landscape artist who devised the park system.

The second step looking to the plan to adopt the commission form of government for La Crosse will be taken late this week when petitions now being drawn are circulated among the citizens for signatures. The first step was action by the board of trade and manufacturers and jobbers' club which appointed a joint committee to pass upon the matter. The petitions are being drawn by Attorney Frank Winter and must receive approximately 1500 signatures and their circulation must be pushed rapidly in order to bring the matter to the earliest possible vote.

Arguing that clerks and carriers are deprived of the opportunity of going to church and that the majority of the users of the Sunday delivery are young people, Postmaster W. D. Tscherner has started a movement for Sunday closing at the postoffice. Many other cities have taken up the plan and there is little doubt that the end of another year will see practically every office in the country closed on the Sabbath.

TWENTY YEARS AGO TODAY

General Superintendent Calvert of the Burlington and Missouri River road has announced that his road will soon equip a large number of locomotives with electric headlights. The advantages of electric headlights are numerous, and there is no disadvantage worthy of consideration as the additional expense over the cost of maintaining acetylene lights will soon be offset by the saving of claims arising from accidents.

The new La Crosse club was formally opened in the splendid new building on North Fourth street today. The anti-race rule has been established.

The law enacted by the state legislature in 1876 which provides that the county board of supervisors can fix the salary of the sheriff has been declared unconstitutional. The court's decision affects this county as well as every other county in the state and although Sheriff Barber accepted his office with the understanding he was to receive \$2,500 a year, he is in no way bound to accept it and he may collect fees if he desires.

THIRTY YEARS AGO TODAY

There is talk among horsemen of making a drive-way on the river opposite the city and where it can be seen from the levee. The ice is now quite safe, being twenty inches thick, and such a safe road would be well patronized. People could witness from the levee the speeding of fast horses and there would no doubt be many racing contests.

At the meeting of the board of education last night a motion was made and carried that experienced teachers who are hired as substitutes shall be paid the regular minimum wage.

A railroad running into La Crosse has been advertising the sale of tickets which will be "good until February 29" which is considerable of a limit as leap year will not come until 1924.

THE LURE OF LUNA

By R. RAY BAKER

At the north end of the double row of rickety structures stood one more pretentious than the rest. Its pretentiousness consisted of its bigness in contrast with the others, an entrance and a cluster of three electric lights in front.

The pretentious building was not brilliantly lighted, in fact the interior did not appear to be illuminated at all, although those three lamps blazed, beckoning in front. Yet there was no questioning the fact that every Rock Riverite was there, including Col. Westbrook, self-styled mayor, the school teacher, the sheriff, the town's two lawyers and the justice of the peace.

It would have been a propitious time for burglary, with the guardian of the law and his official relations shut up in that dark structure—only all the bad men were there also.

It was 11 o'clock when lights flared in the building and it began emptying crowds into the street. Among them were Fred Adams, miner, and his wife.

"Wasn't it grand?" she exclaimed, radiating enthusiasm, as they walked toward a building less pretentious than the rest at the south end of the double row of rickety structures.

"Yes, it was all right," he responded, not so enthusiastically. Her hair was so black it blended with the night, while her eyes, which also were dark, danced with a light that would have been vivacious had not Rocky River been a mining camp and had there been an excuse to be vivacious.

His hair was red and freckles by the multitude almost made themselves seen through the darkness. He was dark, with a thin face in conformity. He unlocked the door of their dwelling and they went in. He found an oil lamp and presently had a feeble illumination spreading itself about the place but neat and cozy apartment.

Lighting his pipe Fred Adams seated himself at a crude desk in a corner of the room and fondly handled five little nuggets which he had produced from a drawer. They represented all the wealth he possessed, the product of ten weeks' steady panning in the river.

His wife went to him and kissed him and retired to her bed in the next room, to dream.

They were both dreamers. While she dreamed of fame in the films he dreamed of wealth to be wrestled from the river.

Fred Adams came of a long line of miners, all of them real tollers, most of them unsuccessful. From his father he inherited sufficient funds for a college course, but one year there satisfied him and he went back to the family vocation and grubstaked himself out of the money he had left.

Big wife was a wait, brought to Rock River by a husband of means who found her at Pearson's Gulch, a hundred miles away, just after the village people had laid her mother to rest in the cemetery.

There were stories that the mother had been an actress, but they might have been just stories. The girl owed her education to the Rocky River school teacher, a former instructor in a seminary in the east who had come among the mountains to repair broken health and with whom the waif lived until Fred Adams came along.

The movie had invaded Rock River only three months before, and now it was a regular semi-weekly treat. Twice a week Fred Adams was dragged by his wife to the pretentious structure at the north end of town. Not once did he think of refusing her the little extravagance; he loved her too much for that, and he realized he had not much to offer her in the way of recreation. But how Fred Adams liked the movies!

He knew there must be a climax before long, because he could see that his wife was fast in the clutches of the films, so to speak, but he hardly was prepared for her announcement.

"Fred, I'm going to be a movie star."

She had emerged from the bedroom and was standing beside him as he sat at the desk with his movie dreams.

"What did you say, Helen?" he asked, thinking he could not have heard aright.

"I said I was going to be a movie star. I was asleep, and I dreamed that the man in the moon looked through the window and opened his huge mouth and said, 'You should go in the films. Your mother was an actress, and you have her talent. You can be a star. I had been thinking of just that thing for a long time, and the moon made me decide. So Fred, I'm going to be a movie star—if you don't object.'"

Object? Of course he couldn't do that. He could not object to anything she suggested. However, he did not quite understand how it was to be done.

"It's simple," she explained. "I've been reading these two magazines left by the travelers and they tell how. All you have to do is go to California and get a job in a studio, and if you have the talent you get to be a star."

As he turned in his chair and looked up at her his face seemed longer than usual, and the wrinkles in it were more pronounced. She had the magazines in her hands and was fumbling the pages. Her eyes were dancing and her face was flushed. Helen was a spoiled child, but then he had spoiled her.

"I mean it, Fred. It isn't that I don't care for you. I really do, and want you. But I can't be tied down here any longer. I must go out into the world. I've just got to be a picture star. In one year I'll come back to you whether I succeed or fail. Can I go?"

Something seemed to hurt in Fred's brain, and his throat felt parched, and his eyes filled. He turned to his desk and frowned at the five nuggets.

"Of course you can," was all he said.

The next day he took his nuggets to the assayer and obtained slightly more than enough to send his wife to California.

So Helen Adams went to Califor-

Down With "Ain't"
The first week of February is to be known as "Better English Week" at North High School, Minneapolis, Minn.

Mothers Act as Advisors
An advisory committee of mothers has been appointed at the Los Angeles, Cal., High School to attend to all matters pertaining to school welfare.

To Study Nature
Classes in nature study are soon to be introduced in the elementary schools of Cleveland, O., according to the director of school gardens of that city.

Snake Dance on Broadway
Following a big banquet and celebration fifty seniors of the DeWitt Clinton High School, New York City, unmindful of a dreaching rain, did a rattling snake dance up Broadway, singing and yelling the songs of their school.

Make Good Use of Gym
The people of Northwood, Ia., make good use of the Northwood High School gymnasium. Some high school gymnasiums aren't used as much as they might be, but not so with Northwood's. One night during each week the American Legion basketball team holds its practice there. On another the Boy Scouts uses it for meetings. Some of the ladies of the town, in an organized gym class, hold their work-outs in the gym, and at other times the school's own boys and girls teams are either practicing or having games. Northwood High is well pleased with the popularity of its gymnasium and urges the city's organizations to make good use of it.

DOG STORIES

My dad, when he was a young man, was cashier for a large manufacturing concern. It was one of his duties to go to the bank each Saturday and get the money for the concern's pay roll.

Dad had a pet dog—a powerful bull—which was his best pal. This dog was with dad every minute that he was at home, and on Saturdays, when dad would go to the bank after the money, he always took his dog along with him as a protection.

One Saturday when the two were returning from the bank with the money, two men jostled dad and attempted to snatch from him the leather money bag which he carried under his arm. Dad's dog was on the watch, tho, and jumped up, grabbing the arm of one of the bads, and held tight. Dad called to a policeman, and together they captured the one man held by the dog. The other escaped. But the confession of his partner led to his arrest shortly after. Both were sentenced to jail.—O. M. S.

QUESTIONS AND ANSWERS
"What is the national hymn of Italy and also of Poland?"—Francis Roland, Quincy, Ill.
"Marcia Reale Italiana" (Royal Italian March) is the national hymn of Italy. "Bogza Cos Polska" (God Save Poland) and "Jeszcze Polska Nie Zginiele" (Poland Is Not Lost Yet) are those of Poland.

"Is Robert E. Peary, the arctic explorer, still living?"—Robert L. Eberly.
Peary, who was the first man to reach the north pole, died at his home in Washington, D. C., on February 20, 1921, after two years of illness. An effort to save his life by blood transfusions was made, but to no avail.

THE INHUMANITY OF NEIGHBORS

By DR. WILLIAM E. BARTON

A neighbor can be a terrible thing. He can keep chickens that scratch out your garden, or a bull-dog that frightens your children, or a daughter that sits with a companion in a hammock on the front porch within sound of your open window and forbids your sleep, or a phonograph that plays jazz tunes, and for none of these infiquities is it lawful for you to shoot him.

He can permit his children to be extravagant, so that your children come to you demanding that you shall permit them to dress or drive as fast as his children do. He can fall to shovel the snow off his front walk to the grave peril of your safety of body and peace of mind.

You cannot very well ignore him, because he is so near to you. If the world were larger you might forget him, but he is very near. The time question is an occasion of long standing bitterness between farmers; and clothes-line quarrels are in a class by themselves in municipal courts.

There are times when you have a suspicion of what may have been the hidden experience behind the prophet's declaration, "I will show thee no mercy, saith the Lord, but I will deliver them every man into the hands of his neighbor." That is a very terrible threat.

Living Bachelor has a story on "Keeping Up With Lizzie" in which one girl, who has been away and come back with fine clothes and extravagant habits, started a whole neighborhood in a foolish though amusing race to be in style. Neighbors have a habit of goading each other in this fashion, mutually complaining of each other the while. Neighbors are very tyrannical.

But there comes to almost every home at some time in its history an occasion when the family learns what neighbors really are good for. Sickness arrives, or trouble in some other form, and the whole world looks bleak and drear. Then the neighbors come in. They answer the telephone, and wash the dishes, and neglect their own work, that they may do yours. They labor and love and sympathize. They warm your heart and give you a new grip on your faith, and you and your household forget the dog and the chickens and the phonograph, and say, "We have the best neighbors in the world."

That interesting genius, Chesterton, just now on a visit to this country, has this word to say:

"We make our friends; we make our enemies; but God makes our next-door neighbor. He is Man, the terrible among the beasts. That is why the old religions and the old Scriptural language showed so sharp a duty toward one's neighbor. One's duty towards humanity, but one's most repulsive experience, may be the result of choice or a kind of taste. We may be so made as to be particularly fond of lunatics or particularly interested in leprosy. We may love Negroes because they are black, or German socialists because they are pedantic. But we have to love our neighbor because he is there."

One of the permanent needs of society is for neighbors. For them we may well sacrifice much. We may leave behind us much of comfort and even of luxury, and go with Riley, back to Grigsby Station, "what we used to be so happy and so poor." For there we shall find neighbors.

"I made good from the start. They found out that my mother had been in great actress on the stage, and they set out to make me great in the films. I wanted to surprise you so in my letter. I simply said I had a studio job. But I have had wonderful success—simply wonderful! I wonder if you have seen any of my pictures? Probably they have not appeared here yet. The very best one, the one that gave me my start to fame, was 'The Lure of Luna.' Oh, they gave me wonderful parts to play. They seemed created just for me. Others were 'Star of the Morning' and 'Across the Desert.'"

"Rocky River is much the same," she rattled on, "only it looks like they were putting up a big building south of us. There's a large excavation there."

He reached into a drawer of his desk and brought out a roll of blue paper.

"These are the plans," he said. "It's going to be our house. The place where we will spend our vacations."

Her eyes were round with astonishment, and bewilderment.

"But, explain, explain," she insisted. "This is a magnificent home. This old house must be full of nuggets. Did you strike it rich while I was away?"

He lifted her from his knee on which she had been sitting, to a chair.

and went hup the other room. When he returned there were two old magazines in his hand and a queer twinkle in his eyes.

"These brought you success," he said, turning the papers, "and they also brought me success. I used my last nigger to pay your way to California. When the bus disappeared with you I came back to this little but discouraged, not caring what happened."

"With the intention of tearing them to pieces I picked up these magazines but something in one of them attracted my attention and I read. That very night I wrote a motion picture scenario, I sold it, and then I sold another, and soon I had sold many of them."

He lighted his pipe and puffed on it slowly, his eyes still twinkling.

"Among my pictures," he went on, "were 'Star of the Morning' and 'Across the Desert.' But my very best—the one that got me recognition—was 'The Lure of Luna.'"

Saffron Once Royal Color
To Ireland saffron early became a royal color and for a long period after such exclusiveness was taken away in 1816, the yellow saffron-dyed shirt remained a mark of social distinction in the Highlands. In art saffron was much employed in medieval illuminated manuscripts. In combination with the gold as a substitute for gold and of course, at all periods the coloring of many textiles was done with little crocus stigmas.—Merrill Herold.

Beeswax Finish
To try this method of covering the cracks in furniture soften beeswax until the consistency of putty, then press it into the cracks very firmly, smoothing the surface over with a thin knife. The surrounding wood should then be sandedpaper, with fine sandpaper, working some of the dust into the beeswax.

Distant Acquaintance
"Handle that horse! Don't let him handle you!" belowered the soprano, the cavalry troike just receiving his first lesson. "Give him your spurs. Goose him!"

"I can't get close enough to him," screamed back the troupe leader. —American Legion Weekly.

ASK STATE AID FOR PERSONS SUFFERING PHYSICAL HANDICAP

Conant Measures Provides for Rehabilitation Through Vocational Education

MADISON, Wis.—Rehabilitation of the industrially handicapped through state assistance administered by the state board of vocational education, is provided for in a bill to be introduced in the legislature tomorrow by Senator John A. Conant of Westfield. An offer of federal aid is accepted, and provision made for extending the scope of the federal act to comply with the recommendation made by Governor John J. Blaine in his message to the legislature.

The state, under provision of the bill, would aid in the establishment of schools and classes for the rehabilitation of physically handicapped persons, supervise their training, and then aid them in securing such employment as will facilitate their training or will be suitable to their physical condition.

Any citizen of the state who has been injured in industry or who has a physical defect, and who may reasonably be expected to be fit to engage in a remunerative occupation after completing a vocational rehabilitation course, is eligible to receive training, the bill provides.

The vocational board would be given full charge of administering the act. Besides providing for schools and classes for rehabilitation and for placement of men who have completed courses, the board would arrange to furnish artificial limbs and other orthopedic and prosthetic appliances as needed.

They would arrange for physical examination of any person applying for or receiving rehabilitation, except persons reported by the industrial commission, as entitled to rehabilitation under the workmen's compensation law.

Maintenance cost for those receiving the training would be provided by the board up to a maximum of \$20 a week, extending over a period of not to exceed 20 weeks. This expense would be paid out of a special fund created in the following manner:

The insurance company which under the workmen's compensation act has insured the injured worker, would pay to the state treasurer for every case of injury causing death, in which there were no persons entitled to compensation, a sum of \$300. Where there are partial dependents, the difference between the sum paid them and \$300 would go to the rehabilitation fund.

The federal government would extend aid of approximately \$20,000 to the state annually to apply the law, and under the proposed act, the state appropriates an additional \$20,000 annually.

CONSOLIDATION OF PHONE COMPANIES ASKED IN ASSEMBLY

Power to Order Merger Vested With Rail Commission by French Bill

BY FRED L. HOLMES
MADISON, Wis.—A bill to give the state railroad commission power to consolidate telephone companies was offered in the lower house on Tuesday by Assemblyman J. E. French, Superior. While the bill is designed primarily to reach the Superior situation, where the two phone companies are said to be owned by the same parties, it will have a like effect in some other sections of the state.

By the provisions of the bill, the railroad commission shall have power upon petition of the city "to combine or consolidate two or more telephone companies, franchises, properties and corporations operating separate systems of telephones in any such city

upon such reasonable terms and conditions as it shall determine."

As in the present public utility law the city is required to file a petition stating the facts. The commission must then hold a public hearing, as is the necessity of the change. Appeals from the order of the commission may be made to the supreme court.

Assemblyman C. E. Hanson, Pierce county, offered the constitutional amendment providing that a sheriff may succeed himself. This resolution went through the legislature two years ago with little opposition. If it passes at this session it will be submitted to a vote of the people at the fall election in 1922. There has been a general demand for the passage of this amendment and it is reported that in two counties of the state this provision of the constitution is now being openly disregarded and that public opinion in the county sanctions the action of the sheriff, who has succeeded himself.

Assemblyman C. J. Hanson also offered a bill for the making of an appropriation of \$500 for the normal school fair at River Falls.

HIRST ANNOUNCES RESIGNATION AS HIGHWAY ENGINEER

Man Who Put Wisconsin in
Forefront in Road Construc-
tion, Leaves Position

SCORES FAILURE OF STATE TO PAY WORKERS ADEQUATELY

Declares Disaster Faces State's
Highway Work

MADISON, Wis.—Disaster faces Wisconsin highway work as the result of failure on the part of the state to provide adequate salaries for her workers, A. H. Hirst, highway engineer said Tuesday before the road school session here in announcing his resignation from state service.

Mr. Hirst, who for fourteen years has been connected with road building in Wisconsin, and who is credited with placing this state as a leader in the nation for its highway construction, declared that neither he nor any other man could prevent the coming disaster to the whole state service, as a result of low salaries.

"Salary has been considered the only important part of public office," Mr. Hirst said. "Given any salary, any place could be filled. There would be hundreds of applicants for the position of state highway engineer if the salary were \$2,500 instead of \$7,500. As long as the public is willing to accept any kind of service, it can fill all positions at any given salary."

"Wisconsin pays its governor \$2,000 a year, its secretary of state, its treasurer, and its attorney general the same amount. She pays the members of her legislature \$500 for two years of service. All of these places and many hundreds of other effective positions in state, county and all other units of government, are and will always be filled and generally well filled, because of honor, prestige and experience give work and personal sacrifice for a limited period."

"However, few of these offices are the life work of the incumbent. They are either stepping stones to other things, or are the contribution to the public welfare of men who have made their state and can afford the sacrifice."

"I had hoped to build up a business organization of the best type in Wisconsin's highway work. Until the public mind grasps the situation and supports a proper scale of salaries for the public service, I am convinced that I cannot succeed."

"As fast as we train men the best are asked for service in the commercial field. In 1920 the commission lost 27 per cent of its principal employees, and indications are that the losses in 1921 will be even greater. This will continue to be the case until the public realizes that it must protect itself by paying more nearly the market price for highway training, business experience, brains and energy."

"As I look into the probable future, I am unwilling to continue to take the responsibility for the proper expenditure of the tremendous sums now available, since it is necessary for the state highway commission and the state chief engineer to select my successor I shall relinquish the work with the most profound regret."

"If the whole public service cannot be properly organized, at least the public highway organization must be put on a business basis. I cannot afford to be longer connected with it unless it is so put. Lacking that basis, both element of personal progress and the element of protecting my reputation as a highway engineer must impel the relinquishment of a position both unprofitable and fraught with danger to my future career."

American Bamboo

Efforts are being made by the government to popularize the Japanese bamboo in this country. The plants have already been successfully grown in the southern states, and the plant has many excellent features to recommend it. This will furnish large quantities of bamboo for the pulp industry required by our manufacturing industries. The giant grass grows a foot a day, and its fifty-foot stalk is well adapted for making frames, furniture, ladders, trellises and barrel hoops. The new sprout is a delicious vegetable and resembles asparagus in flavor and in the manner of its preparation. There is an increasing demand in America for the bamboo lumber, and also for the edible bamboo shoot.

The Ring as Evidence

The Ring as Evidence, in the Ex-press, shows on ten thousand feet above the sea, contains as many as sixty lakes of varying sizes. According to local tradition, these were left at the time of the Flood. When the waters subsided, it is said, Noah and his family landed on the Bay de Prisme, one of the highest peaks in the district. To prove the truth of this tradition, travelers are shown an iron ring to which, the peasants declare, the ark was moored when the landing was effected.

IF YOUR EARS RING WITH HEAD NOISES

If you have ringing, buzzing, noises in your ears, are getting hard of hearing and are getting that deafness to your drum and get 1 ounce of Parmitin (double strength), and add to it 1 pint of hot water and a little granulated sugar. Take a tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal trouble of the ears, or has head noises should give this prescription a trial.

STOP THAT OBSTINATE COUGH

The obstinate cough that settles in the throat, with a gathering of phlegm, is objectionable and dangerous especially for children. You can stop the cough and remove the cause of the trouble with a treatment of Glessco. For forty years Glessco has been used in millions of American homes for the treatment of croup and coughs. It will relieve croup in fifteen minutes, without vomiting. It stops the most obstinate cough by carrying the offending mucus right out of the system. The careful mother always keeps Glessco in the home. Your druggist will tell you how many of your neighbors are using Glessco. Sold in 50c bottles—it is worth ten times as much in time of need.

The Atlantic's Oyster Bed
There are oyster beds along the Atlantic all the way from Cape Cod to Mexico, but the bivalves are not found in the open sea, but in the bays and estuaries where the water is neither salt nor fresh. The oysters would have been exterminated some time ago if it had not been for the practice of planting the beds. More than half of our oyster crop is gathered from planted beds. In New England this proportion reaches ninety percent. The Chesapeake Bay is the greatest oyster producing locality at the present time, although a great many are taken from the Delaware river.

Navigation on the Tigris
From Baghdad to the sea, a distance of more than 600 miles, the Tigris is navigable for any boat not drawing more than about eight feet. In winter there is plenty of water, but during the long summer drought it shifts all homing. River steamers go up to Baghdad, though they often run aground on the shifting banks, remaining there until they are towed off.

SORE THROAT CHEST COLDS

Won't Last Many Hours When Begg's Mustard Gets on the Job

No mustard plaster that any grand-mother ever made goes after inflammation and congestion like Begg's Mustard, that you can buy at any drug store. In a yellow box for 20 cents, and best of all, there isn't one blister in a whole carload. Oftentimes when you rub it on at night the inflammation is gone in the morning. But if it isn't all gone, the relief you prayed for is certain. And it acts just as fast when used for lumbago, neuralgia, the pains of rheumatism and gout or for sore, aching feet.

In fact, for all aches and pains, soreness and swellings, nothing you can buy at any drug store will produce the hoped for result as quickly as Begg's Mustard, in the yellow box made of real yellow mustard. It's the Quickest Pain Killer on Earth. Hoeschler Bros. can supply you.

SPAN OVER HUDSON
New Company to Construct World's Largest Bridge

NEW YORK.—A 30-year-old project to build a bridge over the Hudson river, is being revived.

A new company has just been incorporated and a committee, including such men as Charles M. Schwab, Thomas F. Ryan and Samuel Rea—has been formed to make the bridge a fact.

It will be the biggest and longest bridge in the world—nearly two miles long, including approaches. It will require seven or eight years to build. The total investment will be \$200,000,000.

Here are the dimensions of the Hudson bridge compared to the

Length of river span (feet)	1,595	3,200
Length of shore spans (feet)	229	1,500
Length of bridge (feet)	2,455	6,200

The new bridge will have 14 car tracks and 14 vehicle lines. It will have an hourly traffic capacity of 1,300,000 passengers, 24,000 vehicles and 58,000 tons of freight.

Oysters Growing on Trees
Oysters growing on trees may be seen on Fekyl Island at the mouth of the Altamaha river in Georgia. Sour orange trees grow on the margin of the island, and the branches that dip into the river at high tide are covered by the flood. Thousands of oysters then attach themselves to the limbs, and at low tide they are suspended several feet above the water. To add to the curiosity, the up-right branches of the tree frequently bear their natural fruit while those below are covered with oysters.

PUT OVER PROBE OF STATE'S RENTAL OF OVERLAND BUILDING

Action on Czerwinski Resolution Indefinitely Postponed by Badger Senate

WINSLOW'S DESK PRESENTED TO WIDOW OF CHIEF JUSTICE

Only Fifty Road Maps Each to be Allowed Legislators

MADISON, Wis.—The senate of the Wisconsin legislature met Tuesday morning and took up consideration of its first bills recommended by committee reports.

A resolution to investigate rental of the Overland building in Madison for state office purposes introduced by Senator Czerwinski, was indefinitely postponed after discussion. Report of the state tax commission showed that the building was appraised at \$81,500, and that the state was paying \$12,500 annual rent, enough to pay for the entire building in the six-year period over which the state contract runs.

The senate voted to postpone indefinitely consideration of a bill to make armistice day a holiday, introduced by Senator Czerwinski. This action followed committee recommendations.

A proposal of Senator Czerwinski that each member of the legislature be provided with 100 road maps of Wisconsin was cut to fifty by amendment and passed. After an amendment had been offered asking that 200 maps be supplied, it was explained that the cost to the state for 100 would be \$22,610.

Mr. E. Blumenfeld, superintendent of public property, was directed to turn over to Mrs. Agnes Winslow, widow of former Chief Justice Winslow of the supreme court, the desk formerly used by him and, by four previous chief justices.

Lieutenant Governor Cummings cast his first deciding vote in the senate Tuesday morning, when a bill of Senator Czerwinski of Milwaukee providing that incomes of less than \$5,000 be exempt from taxation.

When roll call was taken on a motion to table the bill it was found that ten votes had been given to place it on the table and ten opposing. The lieutenant governor decided to place the bill on the table.

The corporation committee had recommended indefinite postponement of a bill.

Farmer-labor representation on all boards of education in Wisconsin is proposed in a bill introduced by Senator W. A. Tibbitts of Fond du Lac.

Two labor members and two farmer members for each board would be chosen to serve, replacing some of the members now named without special interests. The bill has the backing of the state board of education and of the governor.

RESUMPTION OF WORK REPORTED BY STEEL MILLS

PITTSBURGH.—Many independent steel manufacturers in the Pittsburgh district Tuesday increased operations on what executives were called in saying was a "cautiously conservative basis" after weeks in which operations have been suspended or greatly curtailed. It was predicted that within a few days operation would be about forty per cent of capacity, with prospects of increased activity if conditions warranted.

Some of the business which brought resumption was for the export, one order being for \$1,000,000 for steel towers to be used in a wireless installation at Osaka, Japan.

Many plants resumed operations under changed labor conditions. In some instances wage reductions were accepted by the men and in others the working time was reduced to bring operations within the limit of the eight hour day and thus avoid time and a half pay for overtime.

Obituary

RAYMOND LOUIS SUNDVAY

Raymond Louis Sundvay passed away early Monday morning at his home, 1209 West Avenue South, after a five weeks' illness. Mr. Sundvay was born in La Crosse Feb. 26, 1908. MRS. HARDING SEES REPORTERS FOR THE FIRST TIME TUESDAY

Two Policemen Kept Busy Moving 'Crowds' Gathering in Front of Hotel

NEW YORK.—An army of newspaper reporters, augmented by representatives of fashion and other magazines, Tuesday resumed their assault upon the Mrs. Harding hotel to obtain an interview with Mrs. Warren G. Harding, who is here to rest and shop for a part of her white house wardrobe.

The "first lady of the land" had been resting since her arrival here Sunday and had been "not at home" to all callers. Tuesday, however, she promised to see them.

She was simply attired in a black suit dress, trimmed with steel beads and black chenille, as the battalion of newspaper folk, artists and writers for fashion magazines descended upon her. So consented to pose for at least forty motion pictures and "stills" before the newspaper correspondents were allowed to pour out their volleys of questions.

"I can't understand why anybody should place his face before a camera," she observed after expressing concern that the pictures might not turn out well.

All efforts to ascertain when she would go shopping along Fifth avenue proved futile. She would only hint that arrangements had been made for showings by certain modistes in her apartments.

The groups of newspapermen, women writers and camera men clustered about the lobby and on the sidewalk in front of the hotel, attracted such a crowd of curious persons that two policemen were summoned to keep the sidewalk traffic moving.

Later two modistes coming from Mrs. Harding's suite announced with triumph that she had purchased two chiffon tea gowns, one of blue and the other of an orchid shade, touched with Nile green and gold, with a giraffe of orchid brocade. Two milliners were admitted to the apartment as the modistes departed.

GUERNSEY BREEDERS HOLD ANNUAL MEET IN WAUKESHA CITY

At the winter meeting of the Waukesha County Guernsey Breeders' Association at Waukesha Tuesday, the following officers were elected: Gavin McKerron, president; Waukesha; Bart Roberts, vice president; Oconomowoc; W. E. Fox, secretary and treasurer; Waukesha.

Several new members were added to the association. Ex-County Agent Earl A. Stallard, now field agent of the Michigan Guernsey Breeders' Association, spoke at length on the need of local Guernsey associations in the Waukesha territory. Mr. Stallard also touched on the need of greater advertising by the Guernsey breeders and recommended highly the use of the daily papers throughout the state for reaching the small farmer as well as the big breeder.

PASS RIVERS BILL

WASHINGTON.—The rivers and harbors bill carrying a lump-sum appropriation of \$15,250,000 was passed Tuesday by the house and sent to the senate. A motion to recommit the measure was voted down, 205 to 120.

EMPLOYEES SCORE INEFFICIENCY OF RAIL MANAGEMENT

Roads Could Save Millions by Better Operation Says Message to Wilson

EXPECT PROMPT ACTION ON APPEAL OF EXECUTIVES

Decision of Rail Labor Board Expected by End of Week

CHICAGO.—A decision is expected before the end of the week on the application of the railroad executives for repeal of the national wage agreements with the railroad brotherhoods, it was said Tuesday. Unless the application is granted at once, it was stated by W. W. Aterbury, vice-president of the Pennsylvania Lines, so that the roads might proceed to reduce operating expenses by some \$300,000,000, the roads face bankruptcy.

Representatives of the brotherhoods asked for opportunity to present a reply immediately and H. M. Jewell, president of the Railway Employees of the American Federation of Labor, and chief spokesman for the employees, expected to state the employees' arguments against abrogation of the agreements later in the day.

Pending action by the railroad labor board, telegrams were sent by the brotherhood representatives to President Wilson and Senator Miles Poindexter declaring the roads "could save more than \$300,000,000 of waste if the management did a better job in operating the lines" and calling for a congressional investigation "which we believe will result in disclosures that the representations of the carriers are deceptive."

HARDING IS FOR EMERGENCY TARIFF

If Measure Fails, Old Republican Act Will be Revived as Stop-Gap

WASHINGTON.—President Harding is expected to urge Congress at its special session to speed action on tariff and taxation bills.

Meanwhile, House leaders expect that as a result of the recent conference at Merion between Chairman Fordney of the house ways and means committee and Senator Harding, the senate majority will get the word to pass the emergency tariff bill.

Republican politicians figure that President Wilson will veto the measure, leaving matters stand as they are, while the republican party will get the credit of having tried to help the farmers.

Meanwhile sentiment is growing for re-enactment of one of the former republican tariff acts, should the emergency tariff bill fail despite Harding's support.

It is expected in Washington that some sort of stop-gap tariff measure will be in effect by April 1, which will stand until the republican administration and congress have worked out a permanent program.

Congressional leaders are waiting with interest the popular reaction to a bill sponsored by Representative McLeod of Michigan, providing for: Repeal of the excess profits tax; Flat tax of 15 per cent on net earnings of corporations.

The McLeod bill would eliminate the \$2,000 exemption under the present corporation tax income section and also the 8 per cent exemption for public utilities.

Senator Snoot is expected to produce shortly a tax plan on which he has been working for more than a year.

One proposal which has greatly interested Senator Harding has been for a turnover tax. Some experts predict acceptance of such a tax will be compelled in order to bring in funds currently.

NEWBERRY PLURALITY 4,500

WASHINGTON.—A recent plurality for Senator Newberry of about 4,500 over Henry Ford in the Michigan senatorial contest was forecast in Tuesday's announcement from the senate committee making the recount, which will be finished Wednesday. It was said. With all but eighty-two precincts recounted for Mr. Ford's net gain was 3,125. Senator Newberry had a plurality on the original count of around 7,500.

Leather From Rabbit Skins

A tanning trick has been discovered by an Australian for making leather from rabbit skins and recovering the fur as a by-product in felt making. A company has been formed in Sydney to turn this discovery into practical use, having established works capable of handling about 100,000 skins a week. The leather has already been utilized in Sydney for the manufacture of boot and shoe uppers, hand bags, gloves and other articles.

SCORES PRESIDENT FOR REFUSAL TO GRANT DEBS PARDON

Berger Expresses Hope New Administration Will Take More Favorable Action

MILWAUKEE, Wis.—Criticizing President Wilson for refusing to commute the sentence of Eugene V. Debs, Victor L. Berger, Milwaukee socialist, in a statement issued Tuesday, expressed hope that the new national administration would take favorable action in the socialist's cases in general. The statement in part reads:

"The decision of the supreme court in the Chicago socialist's case showed that there are signs of sanity returning to some of the departments of our government. Sanity will not return to the white house, however, so long as Woodrow Wilson hangs sway there."

"It is not too much to expect, nevertheless, that the new national administration taking office on March 4 will see the prosecution of the socialists in general, and of Eugene V. Debs in particular, in the proper light and make a clean sweep of the entire deplorable Wilsonian mess."

GRISWOLD SUMMONS STATE MEETING OF GUERNSEY BREEDERS

H. W. Griswold of La Crosse County, has issued a call for an important meeting in Madison on the evening of February 10 of the members of the Wisconsin Guernsey Breeders' Association.

The conference will follow the Pure Bred Live Stock conference which has been scheduled for the United Breeders of the state. This important gathering of Wisconsin stockmen will be directed by a corps of speakers including John Keller Sank County; G. C. Humphrey, Wisconsin College of Agriculture; Chris J. Schroeder, Secretary of Wisconsin Herford Breeders' Association; Gordon True, University of California; J. L. Torney, American Shorthorn Breeders' Association; Chicago; and L. B. Burke of the United States Bureau of Markets.

Mr. Burke has just returned from a tour of South America and will advise Wisconsin Breeders upon the possibilities of live stock trade with South American countries.

LADIES AID TO GIVE COFFEE AT CHURCH PARLORS WEDNESDAY

WOMAN VOTE FIGURES

OSHKOSH, Wis.—That the woman voters of this city are going to "cut much ice" in the majority recall election was evident from the extremely heavy vote cast up to 1 o'clock Tuesday afternoon. At that hour 6,239 votes had been recorded on the machines, a record fifty per cent of that total representing votes of women. The ordinary voting strength of the city before women were enfranchised was about 5,600. At the special election last December to decide on whether the city should continue commission government, the total vote at 1 p. m. was 2,094. Tuesday's vote being two-thirds larger. Mayor A. C. McHenry is running for re-election on a personal liberty platform, while Mayor W. A. Marston is the candidate chosen by the Citizens' Good Government league.

MARRIED LIFE TOO STRENUOUS; HUBBY ENLISTS IN ARMY

John S. Harley Sues for Divorce Because of Wife's Alleged War-Like Actions

John S. Harley says he was compelled to leave home in May, 1915, because he found married life one more or less continuous battle, so he enlisted in the army. He still is in the service, being assistant to the education and recreation officer, stationed at Fort Wadsworth, N. Y. In addition to this, he has filed suit in circuit court for a divorce from his wife, Mae Taylor.

Harley says they were married in Winona, July 1, 1907. They have two children. He charges his wife with cruel and inhuman treatment in that she had a violent temper, used abusive language, threw a carving knife at his head but missed and the knife lodged in a door and at times scratched his face.

The husband declares his wife is 32 years old, a telegraph operator.

14-YEAR-OLD GIRL SEEKS INTEREST IN MARTIN FASS ESTATE

Mollie Fass, 14 years old, of Sparta, through her guardian, J. P. Ltee, has started suit in circuit court for her one-third undivided interest in the estate of the late Martin Fass. The defendants mentioned are Annie Merrill, George Fass, Mary Cassidy, Elizabeth Fass, Emma Fass, Theresa Eckert, Joseph and Capitola Fass, Michael and Lena Fass, Joseph and Emma Fass of La Crosse. According to the complaint the defendants own and possess as tenants in common the southwest quarter of the northwest quarter, the southeast quarter of the northwest quarter and the northeast quarter of the southwest quarter, all in section 27, township 17 north, range 7 west. The plaintiff, Mollie Fass, is desirous of partitioning the property. Her interest in the estate is subject to a lien of \$1,000 in favor of Joseph Fass and a \$400 lien in favor of Emma Fass.

SPECIAL COURSE FOR STATE BEEKEEPERS PLANNED AT MADISON

Special beekeepers' short course for both beginners and practical beekeepers will be held at Madison from February 9 to March 17, 1921. This short course is of special importance to our beekeepers because there will be a complete course in the fundamental principles of successful beekeeping which will include honey raising and marketing. In addition to beekeeping, it will be possible for each one attending in the other subjects included in the following schedule. If so decided, the entire afternoon of each day will be given over to beekeeping work.

NEW ELECTRICAL SHOP TO OPEN IN THEATER BUILDING

The south wing of the new Riviera theater building on the north side will be a new place of business in the city when Melstad Brothers open their electrical shop. Both men have been connected with the electrical business for a number of years prior to their opening in business here.

The shop will carry every electrical device on the market and plans to open for business on Wednesday.

Nose Bleed

Nose bleed is in the nature of a hemorrhage and in cases where it recurs frequently, should have medical attention.

Often, however, first aid treatment may be given with success. Have the patient sit in an upright position with his head hanging backward. Loosen the collar and apply cold water or ice-bag to the back of the neck. If bleeding continues, have him sniff salt and water, or vinegar and water, in the nose (using a teaspoonful of salt or vinegar to a cupful of water) or plug the nostrils with cotton or gauze. If this does not stop the bleeding a doctor should be sent for immediately.

Rash

Q. Our 14-months old son has been troubled for several months with a very bad rash, mostly on his face

and head, but sometimes on his lower legs and back. I am still nursing him, but feed him milk, mashed vegetables, and one or two eggs a day. He is right up to the standard of weight and measurement for his age.

A. Some children remain well nourished throughout an attack of skin disease, but in other cases the general health is undermined. I should advise you to wean him. To the milk and mashed vegetables, you may add beef juice, broth (made from chicken, beef or mutton), cooked fruit, and small amounts of well-cooked cereals. Eggs and meat should be used cautiously until his skin clears up.

Painful Menstruation

Q. I am 23 years old, and am married 18 months, and haven't any children. Since I first started to be unwell, I have had bad pains which lasted two or three hours the first day. I start to menstruate and for two days have more or less pain. It is hard for me to walk or be on my feet as the pain is down-bearing. A week before I start to menstruate my breasts get very sore and swell. I want to know if this trouble has anything to do with my not having children.

A. The pain you have at four menstrual periods may be due to some displacement, inflammation, or other abnormal condition of the womb; to a contraction of the mouth of the womb, which does not dilate sufficiently to allow a free flow of the menstrual discharge; or to neurasthenia or a rheumatic condition. I should advise you to have a medical examination, and treatment of any trouble that is found to exist. It must be remembered, however, that

Failure to have children is sometimes due to some condition in the husband. I would suggest that your husband also have a medical examination.

Grinding Teeth in Sleep

Q. What causes children to grind their teeth in their sleep? I have a girl, six years old, that does that nearly every night.

A. Grinding of the teeth during sleep is usually due to some digestive disturbance—a gastro-intestinal disorder of some sort. It is also found at times in nervous children or in the course of a nervous disease.

DOG TEETH AS COINS

The Papuans use dog teeth for currency. A sufficient number of them will buy anything. Only the four canine teeth, however, are of any value, all the others being worthless. These canine teeth are threaded on fibres, and when a wealthy Papuan goes trading he brings with him strings of these teeth. The women greatly prize them and make them into necklaces, their wealth and standing in the community being indicated by the number of teeth which compose these ornaments. The wives and daughters of the influential chiefs wear rows upon rows of them around their necks on every festive occasion. They polish them until they shine like ivory, and they certainly make an effective decoration on a glossy black body. One necklet, seen by a traveler was composed of no fewer than 320 teeth, which means that 80 dogs were sacrificed to obtain them.

Shock Frequently Does Good

Keep fear out of your system, but don't be troubled at a little fright. Anything in the nature of a shock or a jolt is helpful if it doesn't come too late. It is the only way that three-quarters of the inhabitants of this earth can ever be made to realize the necessity of doing what is in them to do.—John Blake in Chicago Daily News.

SHE DARKENED HER GRAY HAIR

Tells How She Did It With a Home-Made Remedy

Mrs. E. H. Boots, a well-known resident of Buchanan County, Ia., who darkened her gray hair, made the following statement:

"Any lady or gentleman can darken their gray or faded hair, and make it soft and glossy with this simple remedy, which they can make at home. To a half pint of water add 1 ounce of bay rum, one small box of Bump Compound, and 1-4 ounce of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day, until the gray hair is darkened sufficiently. It does not color the scalp. Is not greasy and does not rub off. It will make a gray-haired person look 20 years younger."

New York Woman Files Suit for Breach of Promise to Marry

NEW YORK.—Existence of a \$500,000 suit in which Kingdon Gould, youngest son of George J. Gould, is charged with breach of promise to marry Mrs. Richard Blum of Arkville, N. Y., was disclosed in a report of supplementary proceedings begun Monday in the supreme court here.

Mr. Gould appeared in court yesterday and denied statements made by Mrs. Blum, who asserted he employed detectives to gather evidence on which she obtained a divorce in June, 1927.

She further charged that he offered \$10,000 to settle the case after the suit was filed several months ago, and that she refused.

The court directed both sides to submit all papers in the case next Saturday.

BIG ROAD PROGRAM PLANNED FOR MONROE

Sheriff on Mystery Trail; Farmer Burying Box; Only Old Watch Dog's Body

SPARTA, Wis.—Considerable road work will be done in Monroe county this year. The Wisconsin Highway Commission has prepared a schedule of the work soon to be started in the different counties. That in this county consists of work on the Sparta-Duck River Falls Road, consisting of relocating, grading, and surfacing with shale for several miles along Highway No. 27. On the Sparta-La Crosse Road, grading and surfacing with shale over four miles on Trunk Highway, 21, and other work along this route. On the Sparta-La Crosse Road, grading and surfacing with shale 18 ft. Concrete 9-10 miles on Trunk Highway 21 from the west county line eastward.

The jail was somewhat excited last week, when it was reported that some one had seen a man burying a large box in the woods near the Crowley farm on the Sparta-Leon road. Sheriff Charles Torrence and Tom King proceeded to the spot, and with the necessary tools soon had the box unearthed. Upon opening the box, it was discovered that the farmer had been burying the remains of his old watch dog. Nough said.

Ontario is to have a new \$22,000 crematory, to take the place of the one recently destroyed by fire. The structure is to be built of tile and brick and will be made fire proof, as far as that is possible. The hauling of material for the new building, has already begun.

The trustees at Viroqua have voted to build a new Masonic Temple, costing about \$100,000. The former building was destroyed by fire about a year ago.

Public Debate

BEST PLACE IN CITY
La Crosse, Wis., Jan. 21, 1931.

Editor, La Crosse Tribune and Leader-Press, City:
Dear Sir: You state in your Sunday editorial that you would like to hear from us on any subject of outdoor sports, regarding the upkeep of the laagoon in Pettibone park for outdoor sports on ice.

The laagoon is the best place in the city for skating. It is a hotbed of activity and in fact any ice sport resort of its kind. It would be cut up by a pump and people would skate on it for a time, it could be flooded by means of a pump easily enough. As for room little need be said. There is room for all the skaters in the city.

Now that the carnival has brought out to us a place to skate the city authorities ought to take it into their heads to keep the place up.

Here's for a public skating rink on the Pettibone laagoon!

Yours respectfully,
AN INTERESTED CITIZEN.

P. S.—Hope you think the same as I in this matter.

LARGEST EXHIBITION
La Crosse, Jan. 21, 1931.

Editor, La Crosse Tribune:
Please give me a little space in your paper for a few words of the income tax.

I think the time has come for the public to fight for a change in exemptions. In fact we should have had a change two years ago. A man gets exempted now during the H. C. of L. time at the same rate as before. He is allowed \$225 a year for a child between the ages of 1 year and 13 years.

This is supposed to provide a supply for the clothing, food and education of each child or young lady or youth.

To anyone who has, with the utmost tried to feed and educate a child for the last year, this sum is ridiculous.

Let us take food for the first item—Could a young boy or girl for less than four dollars a week get along? Then the child must be clothed. I paid fourteen dollars for a very plain but warm coat, after a reduction sale, for a ten-year-old girl. What if the girl were 16 or 17 years? It would require from \$20 to \$25 for a suitable coat. Then a pair of shoes

every two months (which is most conservative) at the very low price of \$4.45. This \$2.45 for shoes, underwear, stockings, school clothing, hats and the actual expense of cloth (most mothers dress their own sewing) brings us the figures for food and clothing of around \$280 a year.

Now this child must be educated and have some recreation, car fare (which is no light item) and a few movies, and enough money to take up different sports at school.

What all women of each city should do something in regard to having a child's exemption changed from the \$200 to at least \$300.

I think the government really wants the average middle class mother to live in some comfort, also to be able to provide a home for his family; so let's get busy and make a campaign to give a man an exemption that will really enable him to pay for his family a home and food for it.

Then tax the balance.
MRS. F. S. LOWAY.

LAGOON FOR FRESH AIR
Editor, Tribune and Leader-Press.

Dear Sir:—The Tribune of Tuesday, Feb. 27, gave in two articles in Sunday's issue of your paper concerning the laagoon in Pettibone park. I am glad to see that you are so interested in the laagoon. I am a frequent user of the skating rink for many years to answer in most emphatic affirmative tone.

Perhaps the most used as a convenience factor that the city should maintain this rendezvous for skaters. An argument resulting from personal observation is the fact that the skating rink is the only place where the city and the people outside of the city and the people inside of the city can meet and enjoy themselves.

That the parks and rinks in the city where facilities were formerly provided can just as easily be made use of in no other way.

A question which naturally arises out of the situation. The punch line of the argument lies in the fact that the city, away from the skating rink, is a small additional expense to the city. A large number of the tax payers in the city are giving it their individual support.

The Screen

AT THE THEATERS TODAY

Rivoli—Mary Miles Minter in "Eyes of the Heart," Christie comedy, "Home Spun Hero" and motion pictures of Galli-Curci's wedding.

Majestic—Owen Moore in "The Poor Simp," Pollard comedy, "Mamma's Boy," Fox News and vaudeville, Smith and Keefe in "Songs From Dixieland to Broadway," and Wilbur Tanzer, juggler.

Bijou—Geraldine Farrar in "The Woman and the Puppet," star comedy, "Nutcracker," "Drag Harland," comedy, "Dew Drop Inn," comedy, "Money Talks."

Owen Moore's picture "The Poor Simp" is difficult to define. Owen Moore's picture, "The Poor Simp," shown to a large patronage of pleased theatergoers at the Majestic yesterday. It may be classed as a farce comedy with dramatic situations and the element of suspense worked up to the nth degree, or it could be called a fast-moving drama with unusual good comedy scenes, in either case it provides most excellent screen entertainment and reflects great credit on the clever story. Owen Moore and his capable supporting cast for their intelligent character portrayals, Victor Horstman for the artistic direction and the Seznick forces in general for the high standard of production.

Smith and Keefe in songs are the hit of the vaudeville program. Each song seems to go better than the one before. Both possess pleasing voices. Wilbur Tanzer, juggler, performs cleverly in an entertaining way.

SHEDDON LEWIS IN FILM
AT BIJOU ON THURSDAY

Sheldon Lewis, one of the best known leading men of the American stage, who played star roles for twenty years in stock and was leading man for Mrs. Fiske, Ada Rehan, Blanche, never had a more convincing or more strenuous role than that of Mark Bower, villain of Louis Tracy's famous story, "The Silent Barrier."

W. W. Rodkinson release, which will be shown at the Bijou Thursday to Saturday. Geraldine Farrar in "The Woman and the Puppet" is now showing.

"BURNING DAYLIGHT"—STRAND
"Burning Daylight," screen version of Jack London's novel, is announced by the Strand theater for tonight. It will be played by an all-star cast, including Mitchell Lewis, Helen Ferguson, Louis Morrison, William W. Moir, Edmund Johnson, Gertrude Astor, Alfred Allen, Arthur Edwin Cartew, Newton Hall, Robert Bender and Aaron Edwards.

Readers of Jack London's story will recall that Blum-Harsh, or "Burning Daylight," as the whole Yukon knows him, is a crude, powerful, big-hearted prospector, with a lust for adventure.

SIMPLE WAY TO GET RID OF BLACKHEADS
There is one simple, safe and sure way that never fails to get rid of blackheads and that is to dissolve them.

To do this get two ounces of castile powder from any drug store—sprinkle a little on a hot sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and oil and secretions from the body that form in the pores of the skin. Pinching and squeezing only cause irritation, make large pores and do not get them out after they become hard. The castile powder and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anyone troubled with these unsightly blemishes should certainly try this simple method.

MERRY COMEDY IS SEEN HERE SECOND TIME ON TUESDAY

"Up in Mabel's Room" Well Received by Audience at the La Crosse Theater

With several members of the same cast seen here last season in the production, "Up in Mabel's Room" a bright comedy with merry situations and breezy lines, entertained a large house at the La Crosse theater Monday evening.

James Donlan, who scored a hit in the first presentation of this play here in the role of Curly Ainsworth, is still with the production and won the lion's share of plaudits Monday night. In the part of the hubby in a mess of trouble over an innocent gift to a former sweetheart, Donlan gives a characterization which is a masterpiece. His support is good with the exception of two members of the cast occupying rather minor roles. The scenic effects are splendid and the play is well dressed throughout.

RICKARD, KEARNS AGREE OVER NEW BASIS FOR MATCH

Cochran and Brady Withdraw
from Participation in Car-
pentier-Dempsey Fight

NEW YORK.—Following the ar-
rival in our fair city this morning
of Jack Kearns, manager of Jack Demp-
sey, a series of conferences were held
dealing with the Dempsey-Carpentier
fight. With the introduction of the
latest episode several characters were
withdrawn from the original cast.
Cochran and Brady will go it alone, and
the million dollar glamour will be
shared by William A. Brady and
Charles H. Rickard, who were as-
sociated with Rickard, have withdrawn
from participation in the show.

Accept Percentage Basis
Kearns is willing to string along
with Rickard, and announced a will-
ingness to have the championship box
on a percentage basis. George Carpen-
tier, it is understood, also is willing to
have Rickard conduct the bout, and
will agree to gamble with the per-
centage basis.

When Kearns arrived he was keen
for action, and set about finding the
reasons for the obstacles which have
hampered the proposed bout since he
left for California several weeks ago.
Of these promoters fail to go
through with their contract, I will
cancel their forfeits," was Kearns' in-
dictatory remark to a score of news
chroniclers.

To String With Rickard
"I guess the boxers ought to have
some consideration, and if any one
tries to judge his obligations I think
that we have some redress. If Brady
and Cochran withdraw, and Tex Rick-
ard consents to conduct the bout along
with him, even to the extent of boxing
on a percentage basis."

"I think the contest can be staged
in the United States, and have never
been anxious to have the bout go to
England. The Montreal proposition
appears feasible, but there are several
cities in our own country
where the bout can be held, Detroit,
Milwaukee and New Orleans are
among the places anxious to get the
match."

FOHL IS APPOINTED MANAGER OF ST. LOUIS AMERICANS FOR 1921

Is Only "Busher" in Managerial
Position Who Was Dropped
and Later Recalled

CLEVELAND, Ohio.—Joe Fohl,
appointed manager of the St. Louis
Americans for 1921 probably is the
only "busher" who ever had a chance
in a managerial job in the American
league who was dropped and then re-
called to take the reins of another
club in the same circuit. According
to this speaker, who relieved Fohl as
manager of the Cleveland Americans,
the new leader of the Browns is "one
of the smartest men and keenest stu-
dents of baseball I have ever met."

Fohl's first experience as an Ameri-
can league manager was in 1915,
when he succeeded Joe Birmingham
as pilot of the Cleveland team. He did
little but experiment that year and
the team finished in seventh place
with a percentage of .463. The club
won 43 games and lost 77.

The next season the team finished
in sixth, winning seventy-seven and
losing the same number of games.
The 1917 season found the Indians
coming into their own, winning eight-
y-eight and losing sixty-six games for
a mark of .571, which gave them
third place. During the abbreviated
season of 1918, his team finished in
second place with a mark of .577,
winning seventy-three and losing fifty-
four. The consensus of opinion
among baseball fans was that had the
season gone the limit, Cleveland, in-
stead of Boston, would have won the
franchise.

It was in 1919 that "Babe" Ruth
"latted" Fohl out of the league. Fohl's
resignation came on July 19, 1919, af-
ter a game which the locals lost to
Boston after having had a four run
lead. With three Red Sox on the
bases, and the score 4 to 1, Fohl in-
stead of Fred Cunniffe, a southpaw who
had not worked for a month, into the
game. Cunniffe made the mistake of
trying to lead Ruth with a slow one,
and "Babe" hoisted the ball over the
screen for a home run, winning the
game by one run.

The fans had been "riding" Fohl,
and after this incident he decided that
it would be foolhardy to continue as
manager.

Sound of Cannoning
An authority on the subject states
that the sound of cannonading can be
heard much farther than that of thun-
der. The limit of the carrying power
of thunder is about fifteen miles,
while twice that number of miles
not considered any great distance for
the sounds of battle to travel.

PORTAGE STAGING CURLING BONSPIEL THIRTY TEAMS IN

PORTAGE, Wis.—Wisconsin state
curling bonspiel opened here Monday
afternoon with thirty teams of three
men each participating for the three
main events. Ice conditions are
splendid and the bonspiel points to be
one of the greatest in the history of
the association.

In the opening play President
Fregau of the Northwestern Curling
Association skipping rink from Duluth
Minn., won a spectacular game from
Skip Snap Watson of Portage rink by
a single point, 13 to 12.

Monday night Fregau of Duluth
plays Andrews' fast Portage rink for
a first place in second event for Con-
kile trophy. Skip Dunlop of Portage
lost in the opening round of the main
event to W. J. Thompson of the Port-
age rink, 12 to 9.

Jameson of Portage lost an ex-
citing game in the first round of the
Conkile trophy event, 10 to 3, to
Skip James Leamouth, Portage rink.

Skip Hugo Schwartz put the E. J.
Bliss Portage rink out of the run-
ning in the first round of the third
event, 14 to 11.

Monday evening W. G. Tuckwood,
Portage rink, played B. Bartels
Endeavor, Wis. rink and Rogers of
Portage played Judge C. A. Pow-
ler's Portage rink for places in the
sixteens of the main event.

L. J. Tucker of Madison is playing
George Marshall Portage Engineers
for place in the sixteens of the main
event.

Galesville rinks were expected Mon-
day night and Parkville, Portage,
Endeavor, Lodi and Cambria are in
competition for places in the sixteens
of main event.

Monday night the annual meeting
of curlers occurred and the visitors
were entertained with a smoker. It is
probable that Milwaukee will enter on
Tuesday.

CANADIAN AND U. S. SKATERS TO MEET IN ANNUAL SPEED MATCH

SARANAC LAKE, N. Y.—Seven-
ty of the best skaters of Canada and
the U. S. were gathered here today
for the opening of the annual ama-
teur international speed skating
match which will continue throughout
Thursday.

Among the entrants were Russel
Wheeler, who won Canadian cham-
pionship at Montreal last week;
Charles Jewtrav of Lake Placid, run-
ner up in the Canadian title event;
Charles Gorman of New Brunswick
and Mike Goodman of Winnipeg.

ROLLS 275

William Ott Falls One Pin Short of
Alley Record Made By John
Burns.

William Ott came the nearest to
ticing his record of a perfect score
made about fifteen years ago on the
La Crosse club alleys, in a game Mon-
day afternoon in which he hung up a
score of 275. In parts of two games
Monday afternoon, Ott rolled thirteen
perfect balls, finishing with four
strikes in the first game and adding
nine in his 275 game.

The tenth ball went wide and net-
ted only six pins giving him a score
of 275, one pin behind the alley re-
cord made by John Burns.

THIRTEENTH ANNUAL BOWLING TOURNEY HELD IN ST. PAUL

ST. PAUL.—The thirteenth annual
tournament of the International Bow-
ling association will begin here Fri-
day, February 4 and continue through
February 11.

Two hundred and seventy-two fire-
men teams, 602 two men squads and
1,211 singles events are on the pro-
gram. In addition to bowlers from
Minneapolis, Duluth, St. Paul, and
other points in the state, entries have
been received from Chicago, St. Louis,
Milwaukee, Sioux City, Omaha, Des
Moines, Grand Forks, Fargo, Madison,
Superior, Menomonie, Racine, Eau
Claire, Winnipeg and other towns.

SPORT SUMMARY

TOLEDO.—John Mendichona out-
pointed Tony Mili in twelve rounds ac-
cording to newspaper men.

IOWA CITY, Ia.—Iowa defeated
Chicago 17 to 16 in a western con-
ference basketball game.

BOSTON.—Ed. "Strangler" Lewis
threw Bonato bald without using
his famous head. He threw Gar-
dini with a leg hold.

NEW YORK.—Tex Rickard will
promote the Dempsey-Carpentier
bout for the heavyweight cham-
pionship of the world alone. He agreed
to take over the interests of W. A.
Brady and C. B. Cochran of Lon-
don.

CLEVELAND.—George Clancy
scored a technical knockout over Cal
Delaney in three rounds.

CHICAGO.—Oscar Felsch, one of
the eight Chicago American league
baseball players indicted on charges
of conspiracy in alleged throwing of
games in the 1919 world series, sur-
rendered and was released on \$10,000
bond.

ADELAIDE, Australia.—The world's
record for the 100 yard swimming
event was broken here today by War-
ren Kentola, the Hawaiian swimmer.
He made the distance in 52 1-5
seconds. The record for the 100 yard
swim in open water is 53 seconds,
held by Duke Kahanamoku of Hon-
olulu.

GOTTFREDSON ROLLS HIGH MARK OF 681 IN MONDAY EVENTS

Eddie Koch Dropped Out of
Lead Which He Acquired
With 641 Total

MILWAUKEE, Wis.—H. Gotfred-
son put Green Bay on the map Mon-
day afternoon, when he topped the
pins for a count of 681 in the singles
event of the state bowling tourney
and slipped into the lead in this event.

He started out the first game with
three strikes in a row and then spaced
in the fourth. In the fifth he struck
again, but narrowly missed getting
another strike in the sixth and man-
aged to get his spare. Two more
strikes were marked up in the seventh
and eighth with a spare in the ninth.

In the tenth he started out with a
strike and on his second ball it look-
ed as though he would strike out but
only nine fell and he counted 226 for
his first game.

The second game was started out
with three strikes in a row and then
came the first split of the event, a
bad one in the fourth frame. Got-
fredson then came back with five
straight strikes and a spare with a
strike back in the tenth for his high-
est game of 244.

A bad split in the ninth frame of
the third game was all that prevented
Gotfredson from going into the 700
column. He started out great in the
first five frames, having even a bet-
ter mark than in any of the other
games, but falling down badly in the
final frames ended him to fall down
to a score of 211 for the third game,
which with the other two totals 681.

Green Bay, Oshkosh, Denmark and
other visiting bowlers took the drives
on Monday. With but few exceptions
they did not score very high. Eddie
Koch set things on fire in the singles
event in the first afternoon shift when
he scored 641 and went into the lead,
which lead he held but a short time.

Gotfredson's high mark put Koch in
second place and Jauds in third place.
Had Koch rolled a better score in
the second game of his series he
might have gone away up high as his
games counted 245, 163 and 232.

WRECKING TRAIN HIT BY FREIGHT FOUR ARE KILLED

NEWARK, Ohio.—Four members
of a Pennsylvania railroad wrecking
crew, all from Columbus were killed
early Tuesday when the wreck train
was hit by a freight train near here.
Several were injured, two seriously.
The dead and injured were in the
bank car. Oil was thrown over the
wreckage, setting it on fire and pin-
ning the workers in the flames.

GOLD MEDALS AWARDED LA CROSSE CURLERS AS FIRST PLACE WINNERS

Gold medals were awarded to the La Crosse curlers as a result of
winning the curling meet here in connection with the winter carnival.
Galesville won second place and the silver medals, while Portage took third
place and the bronze prizes.

Because of the inability of several of the members to leave at this
time, the La Crosse rink will not participate in the Wisconsin Bonspiel held
at Portage this week, but the locals have arranged for a meet at that city
on February 22 when the Galesville curlers will also go to Portage to com-
pete with the La Crosse and Galesville rinks.

A. A. Dusty of the La Crosse rink, announces that a meeting of the
La Crosse curling enthusiasts will be held in the near future and it is de-
sired to get all those interested in the sport out for the meeting. The mat-
ter of a permanent organization for La Crosse will be discussed as well
as other matters of business.

Mr. Dusty added further that La Crosse curlers are enthusiastically in
favor of maintaining Pettibone lagoon with all the trimmings.

WIRELESS STATIONS TO BE ESTABLISHED IN CHICAGO SCHOOLS

CHICAGO, Ill.—Radio telephone
and telegraph instruments are to be
installed in Chicago's twenty-two
high schools. Stations already have
been established at Lane Tech High
and at the Sheldon High school, it
was said.

The telephones are to have a day
range of about 100 miles and the
Telegraph instruments have a day
range of approximately 200 miles,
the board said.

BILL PROVIDES FOR STATE CONTROL OF NURSING EDUCATION

Measure Would Transfer Administration of Nurse Registration to Board of Education

MADISON, Wis. — There will be introduced into the legislature during the present week a bill transferring the administration of the registration of nurses from the Board of Medical Examiners to the State Board of Education. This bill is prepared under the direction of Mrs. Adelaide Northrup of the Training School for Nurses in connection with the Milwaukee County Hospital, who is chairman of the Legislative Committee of the League of Nursing Education.

The bill provides for a committee on nursing education made up of representatives of the Wisconsin State Nurses' Association, the League of Nursing Education, the Hospital Association, the State Medical Association, and the Public Health-Nursing Bureau. The representatives on this committee are designated by the associations themselves. The Secretary of the State Board of Education is made Chairman of the Committee. This committee nominates to the State Board of Education the Committee on Nursing Examiners; it also nominates the supervisor of Nursing Education, who will have charge of the detailed administration of the work and make the investigations required under the act.

Training Schools for Nurses may, upon their own application, be placed upon the accredited list as provided in the act. Nurses graduated from accredited schools only may use the title of "Registered Nurse."

The following powers are given to the State Board of Education:

1. To supervise and maintain standards for all schools for nurses.
2. To assist in placing executives in hospitals and in recruiting student nurses.
3. To provide for and require the examination and registration of nurses.
4. To make a study of nursing education and generally to initiate regulations and policies which will tend to improve nursing education.
5. To make such rules and regulations for the administration of the Nursing Education Law not inconsistent therewith.
6. To place schools of nursing on the accredited list on application of such schools and showing that such schools are entitled to be so placed under the rules of the state board of education.

Provision is made in the law for the recognition of the registration certificates of other states and for the same reciprocity of certificates of this state between the states.

The cost of administering the provisions of this measure will be financed largely by the fees collected under the act.

NOMINATIONS FOR DIRECTORATE MADE BY A. P. COMMITTEE

CHICAGO, Ill. — The nominating committee of The Associated Press in meeting here January 31 made the following nominations to succeed the five directors whose terms expire in 1921: the rule requiring at least ten nominations:

E. P. Adler, Davenport, Iowa, Times; John Stewart Bryan, Richmond, Va., News-Leader; W. H. Cowles, Spokane, Wash., Spokesman-Review; Victor P. Lawson, Chicago News; E. P. MacLennan, Topeka State Journal; D. D. Moore, New Orleans Times-Picayune; Stuart H. Perry, Adrian, Mich., Telegram and Times; Henry M. Pindell, Proctor, Minn., Journal; E. Lansing Ray, St. Louis Globe-Democrat; Dr. E. Town, Louisville Herald.

To fill the unexpired term of A. C. Weiss of Duluth Herald, resigned, these two nominations were made: R. V. Jones, Minneapolis Journal; T. H. McKeever, Aberdeen, S. D., American.

The election will take place at the annual meeting of the Associated Press in New York Tuesday, April 26.

VINJE OUT FOR RE-ELECTION TO SUPREME BENCH

Will Have No Opposition for Place as Belief at State Capital

MADISON, Wis. — Nomination papers for Justice A. J. Vinje to succeed himself on the supreme bench were placed in circulation on Tuesday. He will have no opposition. He was born in Norway, 1857, and was educated at the University of Wisconsin graduating from the law school in 1887. He practiced law in Superior from 1891-1895 and was then appointed to the circuit bench in that district. On Sept. 19, 1910 he was appointed to the Wisconsin supreme court in place of Justice J. S. Dodge, resigned. He was elected for the full term in 1917.

Among his most notable opinions was the one written in the soldier educational bonus case in which he

"Pimples broke out on my face and neck. They itched and burned so I had to rub them, and sometimes washed the affected parts in cold water and sometimes warm water to relieve the irritation. My face was disfigured."

"The trouble lasted about a month when I read an advertisement for Cuticura Soap and Ointment. I sent for a free sample and I bought more and after using Cuticura Soap and Ointment for three months I was healed." (Signed) Miss Edith Kissell, 1948 W. 9th St., Muncie, Ind.

held the educational law valid. No one has been mentioned by the bar to succeed him and this is taken as a sure indication that there will be no opposition. The death of Justice Storer places Justice Vinje on the court as next to Chief Justice Storer.

So far no opposition has come into the field to State Superintendent C. C. Cary. His papers are expected to be placed in circulation the latter part of the week.

HELEN L. STEWART'S DANCING DELIGHTS YANKTON AUDIENCE

Little Helen Louise Stewart, daughter of Mr. and Mrs. Roy D. Stewart of La Crosse, was the star attraction at the opening of the new Moss theater in Yankton, South Dakota, last Thursday. Helen Louise gave a dance number at each performance

for three days and according to press reports "all Yankton crowded into the theater on the opening days." The dainty little La Crosse dancer presented "The Secret," a toe dance, and "Egyptian Ballet," an interpretative dance, given in characteristic costume. Helen Louise has been a pupil of the Pavley-Onkratinsky school of Russian dancing in Chicago, the troupe which recently appeared in La Crosse. A special matinee for children was given at the Yankton theater just so the kiddies could meet Helen Louise personally. After the performance more than 700 children greeted and shook hands with the little dancer. She was accompanied by her parents on her Yankton engagement.

The regulation \$5.00 Gillette Safety Razor for

\$2.49

This startling selling event, arranged by the Doerflinger Advertising Department to obtain certain comparative data on publicity methods, brings a saving opportunity tremendously impressive even in these days of deeply cut prices.

We have only a small assortment of these razors. It is the original Gillette Set with triple silver plated razor, twenty-four shaving edges (12 double edged blades) packed in a convenient khaki covered case with highly polished metal mirror, trench style, and is the regulation \$5.00 razor.
